

To whom it may concern,

A proposal for cooperation:

The Swedish Ocean Sailing Club, OSK, is Scandinavia's biggest club for people who are planning for long voyages in privately owned cruiser yachts. The club was founded in 1979 and has 1000 members.

Every year many of our members leave their home port and start out on a long-range voyage. The majority of them take the route along Europe's coast aiming at the Mediterranean or further south to the Canary Islands to continue westwards later on.

It would be of great help to our members if we could recommend some good ports/marinas which we consider to be secure and priceworthy. Discounts on prices for shorter or longer stays would be a plus, as would discounts in shops, restaurants etc. near the port.

OSK will spread the information about such ports/marinas to its members on its home page www.osk.org.

We hope that our proposal will be favorably received by you and that your marina/wharf/company will be among those we recommend to our members.

On the next page you will find a form which we ask you kindly to fill in and sign to confirm your wish to cooperate with us.

Best regards,
on behalf of the Board of The Swedish Ocean Sailing Club:
